Important Note

1. Do not look directly at the IR infrared fill light at close range, otherwise it may cause harm to the eyes!
2. The infrared light of this product will accumulate a large amount of energy when turned on. It is strictly prohibited to aim at flammable objects at close range, otherwise it may cause a fire. When not in use, please turn off the IR infrared fill light!
3. Please use a lithium-ion rechargeable battery with a rated voltage of 3.7V!
4. Do not open the casing without authorization. If a malfunction occurs, please contact the manufacturer in a timely manner. Otherwise, it will be considered as a waiver of warranty service.

Operating manual

Mount

- ① Digital zoom/picture in picture
- ② Distance measurement/laser
- ③ Mode switching/IR brightness
- ④ Menu/Video
- ⑤ On/Off/Sleep
- ⑥ Battery Cover

1

Short press: Digital zoom
Long press: Picture in picture

4

Short press: Video recording
Long press: Start menu

2

Short press: Distance measurement
Long press: laser

5

Short press: power on/sleep
Long press: Off

3

Short press: IR brightness
Long press: mode switching

Battery installation

Unscrew the battery cover and use a 18650 lithium-ion rechargeable battery with a rated voltage of 3.7V. Install one positive electrode facing inward to ensure that the battery cover is tightened.

 Rotary adjustment

- 2 After turning on, first adjust the refractive index of the eyepiece. Everyone's vision is different, and the first time you use it, you need to adjust it. You only need to be able to clearly see the ruler and icon in the red box, and it doesn't matter whether the other parts are clear or not

- 3 After we can clearly see the ruler and icon in the red box, we adjust the focus wheel until we can see the entire picture clearly.

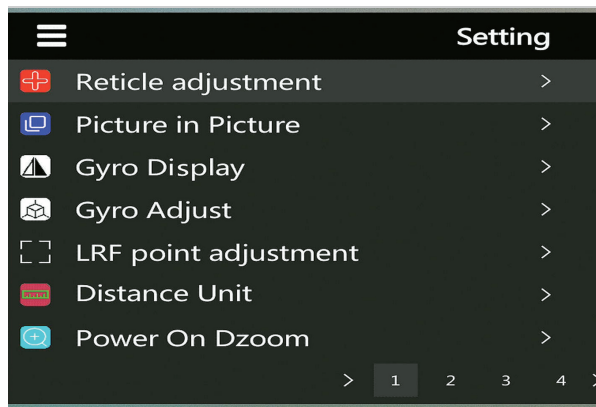

A. The diopter adjustment only needs to be adjusted once when used by the same person. It adjusts the degree between the eyes and the display screen, regardless of the viewing image.

B. The focusing wheel is used to adjust the degree between the machine and the viewing target, so when viewing at different distances, it is necessary to adjust the focusing wheel to see the target more clearly.

Long press  to open menu, long press again  to close menu

NOTE: Button label      In the text, they are replaced by "1, 2, 3, 4, 5" respectively.

Reticle adjustment

Short press "4" to enter
Short press "2, 3" to adjust
Short press "1" to select the next option
Select and save. Short press "4" to save

Picture in Picture

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Gyro Display

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Gyro Adjust

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

LRF point adjustment

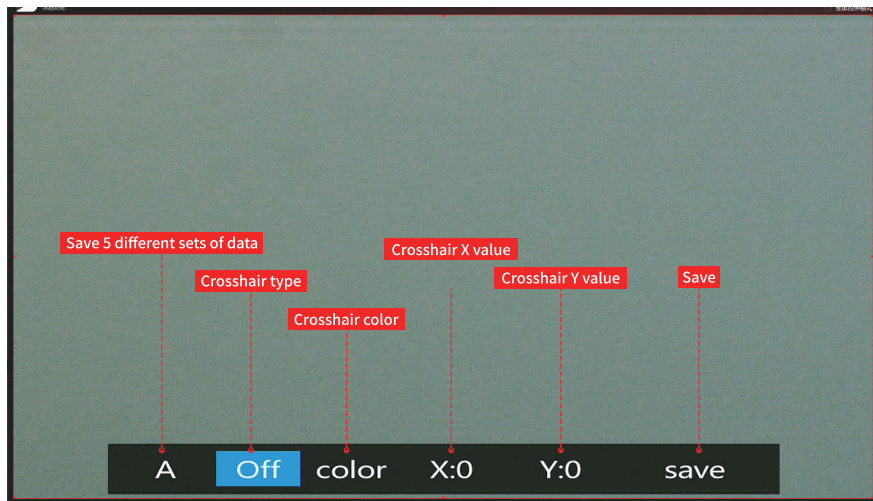

Short press "4" to enter
The machine will switch to black and white mode and start the rangefinder, and you will see the flashing point of the rangefinder
Short press "2, 3" to adjust the coordinates so that the markers coincide with the points on the rangefinder
Short press "1" to select the next option
important: It is necessary to find a distance of over 30 meters at night for adjustment

Distance unit

Short press "4" to enter,
Short press "2, 3" to select
Short press "4" to save

Power On Dzoom

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Long press  to open menu, long press again  to close menu

NOTE: Button label      In the text, they are replaced by "1, 2, 3, 4, 5" respectively.

Power On Color

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Default IR Luminance

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

OLED Brightness

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Auto record

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Cycle Record

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Time Stamp

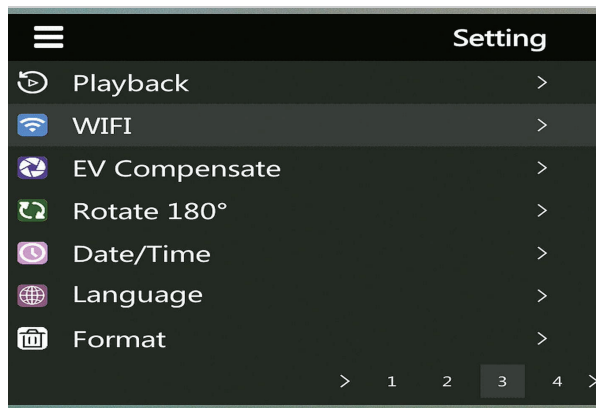

Short press "4" to enter,
Short press "2, 3" to select
Short press "4" to save

Record audio

Short press "4" to enter
Short press "2, 3" to select
Short press "4" to save

Long press  to open menu, long press again  to close menu

NOTE: Button label      In the text, they are replaced by "1, 2, 3, 4, 5" respectively.

Playback

Short press "4" to enter
Short press "2, 3" to select
Long press "4" to return

Short press "4" to enter
Short press "4" to exit

Technical Parameter

Object lens	75mm	Picture-in-picture	Yes
Optical magnification	6x	Gyroscope	Yes
Digital magnification	1-3.5x	Automatic recording	Yes
Focus range	2m-∞	External power supply type	Type-C
Exit pupil distance	35mm	Voltage	3.7-4.2v
Exit pupil diameter	6mm	IP level	IP67
Diopter	±5D	Ballistic calculation	Yes
IR intensity	3 level	Operating temperature	-20°C~+50°C/-4°F~+122°F
IR power	5W	Seismic resistance	6000J
IR distance	400m	USB Type-C	Yes
Display resolution	1024*768	HDMI output	Yes
Display type	OLED	WIFI	Yes
Video resolution	1440*1080	Software support	HBKNV
Display color mode	Color/Black and white/Green	Battery type	18650 rechargeable lithium battery
Storage space	TF card (maximum 128GB)	Net weight including battery	490g
Video format	MP4	Net weight excluding battery	430g
Mute button	YES	Battery life	≤8h

Warranty Card

Product model: _____

Purchase date: _____

Warranty period : _____

U s e r N a m e : _____

Userphonenumber: _____

User address: _____

Warranty records: _____

Thank you for purchasing this product. During the warranty period, we will provide you with the highest quality service in accordance with this warranty clause.

1: Warranty policy

Effective warranty can be obtained by following the following conditions:

- (1) This warranty card must be provided simultaneously with the warranty.
- (2) During the warranty period, faults caused by non-human factors shall be repaired and replaced with accessories free of charge.

2: Warranty Limitations

The product is not covered by the warranty due to damage caused by the following reasons:

- (1) Do not disassemble the night vision device by yourself. If there is a malfunction, please contact the manufacturer in a timely manner. Repairs, modifications, or product seal stickers that are not approved by our company are not covered by the warranty.
- (2) Any product damage caused by human factors or accidents, including use in abnormal working environments, damage caused by failure to follow the instructions and installation, is not covered by the warranty.
- (3) Our company reserves the right to modify and interpret the above terms.
